**GETTING STARTED WITH VOICE THREAD**

Voice thread is a tool for having dynamic conversations around media. Upload a collection of media, comment on it or share it with others so they can participate in the conversation.
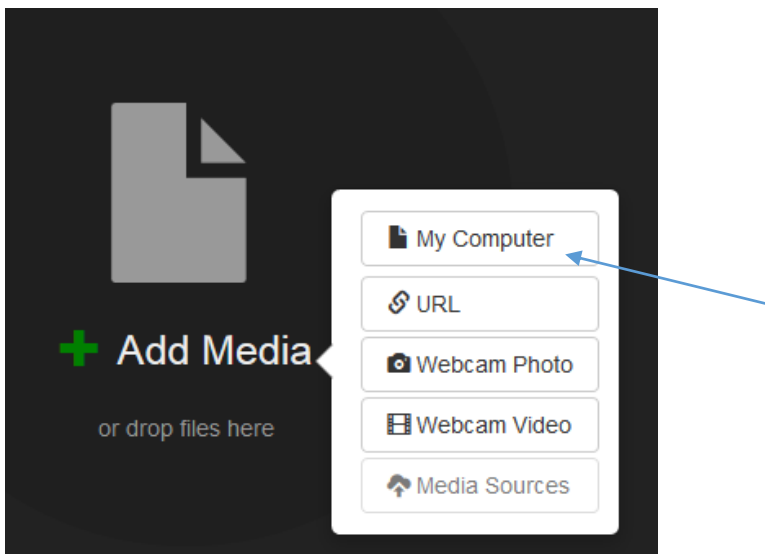

Creating voice thread account:

Voice thread is a cloud technology hence doesn't require any download. Log in www.Voicethread.com and register for a free account on the website.

Accessing the create page and uploading a media file:

Hover you mouse on the top right corner and click on Create. Click on Add Media which appears in the middle of the screen. A pop up appears with four option. You could upload media from your computer, upload media file through a webcam or through other media sources like facebook, flickr etc. or through a URL if you have direct link to the file.

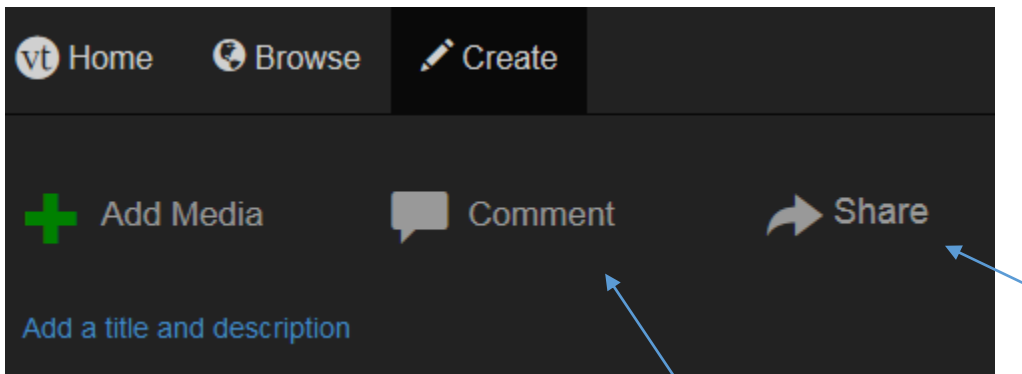

Adding a title to the file:

Once the media file is added, hove over the file and click on the left button to add a title to the file.

Commenting on the media post:

You could also comment on the file before anyone else could by selecting comment option below the create button on the top right corner of the screen.

GETTING STARTED WITH VOICE THREAD

Sharing the media file:

Share button is present next to the comments and opens share area where you can use Voice Thread's many of the sharing options.

Deleting a voice thread:

Click on the gear menu icon on the bottom right corner of the Voice thread you want to edit. Click on delete. Deleting the voice thread will delete all the comments made on those slides.
